

BITTO

TOKEN GENERATION EVENT

All in one cryptocurrency exchange platform

BITTO - A SINGLE INTERFACE FOR CRYPTO-TRADING

Bitto is a global exchange platform that allows users to trade any cryptocurrency through a single point of access from anywhere at any time. Here anyone can raise profits regardless if trading is their profession or a sudden new interest.

SMART TRADING

Trade your favorite TGE tokens as we list the most wanted TGE's to be sold on our exchange platform. Right now we encourage the ERC20 TGE tokens but are not limited to them.

Those who decide to contribute to the platform and acquire Bitto tokens get to enjoy free usage of their offline cryptocurrency wallet storage, direct access to high liquidity trade and portfolio management. Plus, contributors receive a No Trading Fee privilege that can last up to 12 months.

REFERRAL PROGRAM

Join Bitto referral program to earn up to 35% in commissions just by introducing new users to our platform.

All it takes is a link and a post. Simply sign up to receive your referral link to later post it on your site, social networks, or any other place on the web.

SIGNAL TRADING

Bitto offers you to rely on the experience of a myriad of carefully selected and approved professional traders that have a proven record of profitable deals and apply their knowledge for your benefit. You can follow and rely on them when making up your portfolio as an investor.

In case you are a new member without any trading experience, you can automatically copy their best trades and raise profits thorough Bitto Exchange Platform.

BACKED LOAN

Lend or Borrow at your terms in a decentralized environment. Simply post or choose the conditions for a loan! We support multi-signature smart contracts, so no physical paperwork is required! It secures both parties and protects the collateral cryptocurrencies assets. Once the contract is signed, and loan funds are transferred directly to their bank account.

Bitto team watches that all Lenders receive returns on their investments, and measures the Borrowers credit behavior to reward them for timely payments!

PROOF OF STAKE

Stake coins in Bitto Exchange and earn passive Bitto Tokens using a secure blockchain technology. It takes only 15 days for staking in the wallet for you to start receiving Bitto coins daily. We plan to allocate 5 million Bitto tokens as a Proof of Stake rewards during a 2-year period.

Liquidity and prioritization are based on the number of Bitto Tokens you have acquired (e.g., 5002 Bitto tokens are going to have priority over 5000 Bitto tokens in getting their order filled). The holders of Bitto Tokens also get to enjoy the discount on trading fees!

SALES PARTICIPATION

We accept contribution with BITCOIN, ETHEREUM, BITCOIN CASH and LITECOIN

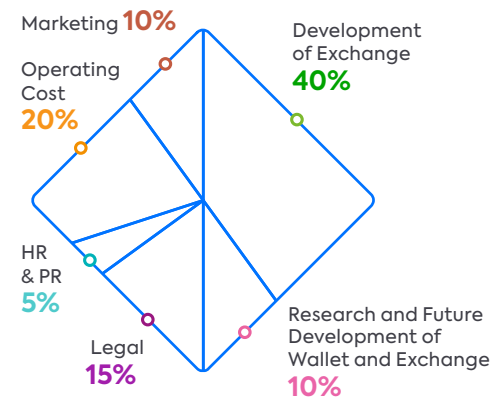

THE BITTO TOKEN

Creating a ERC20 utility token on ethereum platform by Vitalik Buterin, with burn token mechanism. Cost of transfer is 10X cheaper and faster than Bitcoin. Value driven by a requirement to use Bitto Tokens for Signal trading, Lending backed loans. Referral fee will be paid in Bitto Tokens. Staking will reduce circulating supply. We will implement buyback and burning when supply is above 24 million.
